COURSE DESCRIPTION

This program is designed for the residents, fellows, faculty and alumni of the Department of Ophthalmology, University of Miami Miller School of Medicine, and community ophthalmologists.

Participants will be updated on new instrumentation available and also on the progress of on-going clinical studies and research and their effects on the treatment of patients. Didactic presentations will be augmented with audiovisuals in addition to question/answer periods.

COURSE OBJECTIVES

Upon completion of this program, participants should be able to:

- Analyze and apply new findings from clinical and basic research as they relate to clinical practice.
- Identify pathophysiologic changes associated with loss of vision in certain diseases.
- Evaluate indications and contraindications, as well as, complications of surgical and non-surgical treatments.

ACCREDITATION

The University of Miami Miller School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

CREDIT DESIGNATION

The University of Miami Miller School of Medicine designates this educational activity for a maximum of 9.25 *AMA PRA Category 1 Credits™*. Physicians should only claim credit commensurate with the extent of their participation in the activity.
